

Disinfection Scrubber DXS6

Advantages

- Ultra-quiet design, suitable for disinfection and sterilization in various places
- Large water tank capacity(145L).
- The eruption range of the water mist is 900mm.
- On-board spray guns, disinfection and sterilization without dead ends.
- Imported original PG controller, run stably and reliably.

Advantages

Application

Suitable for disinfection and sterilization in workshops, logistics centers, high-speed railway stations, exhibition centers, hospitals, etc.

Specifications

Model	DXS6	Unit
Dimension(l*w*h)	1280*630*1070	mm
Packaging dimension(l*h*w)	1420*780*1250	mm
Spray width	900	mm
Cleaning efficiency	5400	m ² /H
Weight (with battery)	200	kg
Power	580	W
Drive axle power	500	W
working voltage	24	V
Running speed	5.6	Km/h
Backward speed	2.7	Km/h
Upper water tank capacity	75	L
Upper spray flow quantity	0.6	L/min
Under water tank capacity	70	L
Under spray flow quantity	0.9	L/min
Water spray gun flow quantity	1	L/min
Water spray gun pipe Length	4	m
Sound	65	dB
Battery working time	≈8	H
Climbing capacity	≤15	%
Minimum turning radius	1200	mm
Lead-acid battery (standard)	24V120AH	-
Charging time	8~10	H
Lithium battery (optional)	25.6V150AH	-
