40% WIDER

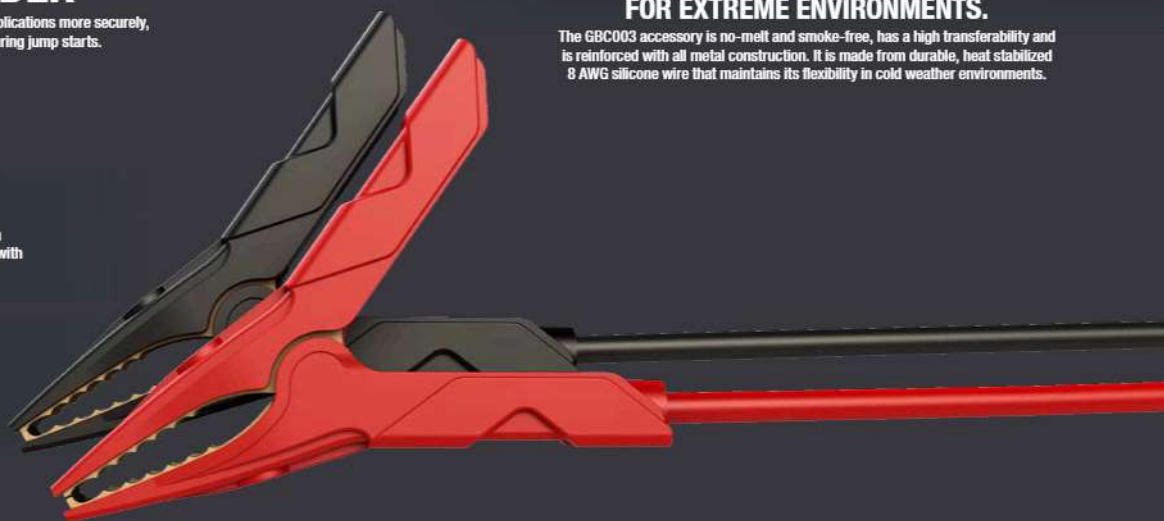

Optimized to fit a wider range of applications more securely, to maximize conductivity during jump starts.

IMPROVED DESIGN.

Besides fitting most battery terminals, the HD Precision Clamps were engineered for improved clamping range with optimal clamping force.

REACH AND CONNECT.

12-inches of cable length and connect to most battery applications, while balancing performance and current delivery.

FOR EXTREME ENVIRONMENTS.

The GBC003 accessory is no-melt and smoke-free, has a high transferability and is reinforced with all metal construction. It is made from durable, heat stabilized 8 AWG silicone wire that maintains its flexibility in cold weather environments.
