

STARMAX

M SERIES

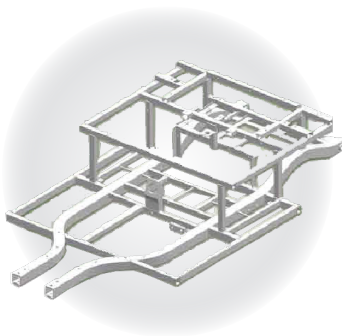

www.starmaxgolfcart.com

- With thickened and widened seat, more comfortable and safer for passengers.

- Front single leaf spring + cylindrical shock absorber, less parts, more reliable structure and lower failure rate

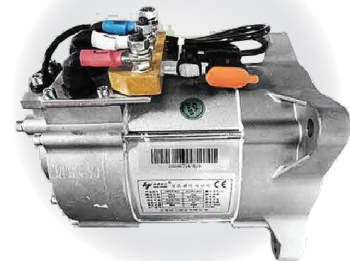

- All the standard parts of the chassis are treated with Dacromet technology. Stronger rust resistance

- The material of the body frame is high-strength aluminum alloy. Cruising range is increased by 25% than the iron frame

- The rare axle is developed according to passenger car standards, more reliable performance and service life

Advanced technology motor is adopted. Stronger power performance
